Oroville Dam Auxiliary Spillway Incident

- Flow from the flood control spillway will be reduced from 40,000 cubic feet per second to zero.
- As flows are reduced, DWR will monitor the status of the dam, spillways, and related structures to ensure their continued safety and stability.
- Flow to the Feather River will be reduced gradually to minimize risk to downstream levees per the Army Corps of Engineers operational requirements.
- This flow reduction in the river will be buffered by the Hyatt Powerplant, Diversion Pool, Thermalito Forebay, and the Thermalito Afterbay to a final flow of 13,000 cubic feet per second.

Per the DWR Flood Operations Center and California Data Exchange Center (CDEC) [as of 04/07/17 at 0900 hours](#):

- Inflow: [38, 802](#) cfs.
- Outflow: [9,762](#) cfs.
- The current lake elevation is [847.29](#) feet.

Cal OES COASTAL REGION

Mudslide, Oakland, Alameda County (Initial / Final)

On 04/06/17 at 2031 hours, the California State Warning Center (CSWC) received notification from the Cal OES Coastal Duty Officer (CDO) via Alameda County Office of Emergency Services (OES) advising of a mudslide that occurred in the vicinity of 6715 Banning Drive in Oakland, Alameda County. The assessment of the hill above the structures was delayed due to the danger of additional movement.

Per the Cal OES CDO:

- Red Cross assisted all displaced individuals.
- There were no requests for assistance.

Per the Cal OES Fire Duty Officer (FDO):

- Oakland Fire Resources responded to the scene.
- No outside resources were requested.

Infrastructure

- Pacific Gas and Electric (PG&E) and the California Utilities Emergency Association (CUEA) were notified.

Evacuations

- All of the potentially affected residents were evacuated.
- 5 homes were evacuated due to loss of water service.
- 1 to 2 homes may need to be red tagged.

Road Closures

Per the Cal OES Law Duty Officer (LDO):

- Oakland Police has set up a hard closure at Banning Drive.

Shelters

Per the Cal OES CDO:

- No shelters were opened.

Cal OES Duty Officers are monitoring the situation and providing updates.

Overturned Fuel Barge, San Francisco Bay, San Francisco County, Spill 17-2651 (Initial / Final)

On 04/07/17 at 0048 hours, the California State Warning Center (CSWC) received notification via a National Response Center Report (United States Coast Guard – USCG) that a Fuel Barge capsized due to rough weather and is now partially submerged in the San Francisco Bay 1/2 mile off Yerba Buena Island.

- The report advises that there is a potential for the release of 4000 gallons of diesel fuel and 300 gallons of hydraulic fluid.
- The CSWC made notifications according the Hazmat SOP. All Cal OES Duty Officers were notified.

At 0128 hours the United States Coast Guard (USCG) advised:

- The barge is located approximately 1/2 miles west of Yerba Buena Island.

At 0151 hours, Cal OES Ports and Harbors advised:

- Per the USCG Commander in San Francisco, they are sending a 45 foot motored life boat to asses the situation.
- The barge is located in 20 feet of water.
- The Cal OES Coastal Duty Officer (CDO) has had no requests from Alameda County.
- Cal OES Ports and Harbors will continue to monitor and update information received from the USCG.

Wind Event, Del Norte County (Initial)

On 04/07/17 at 0834 hours, the Cal OES Coastal Duty Officer (CDO) reported that Del Norte County experienced wind gusts of approximately 70-80 MPH overnight. Del Norte County OES opened their EOC at a Level 1 to monitor events and coordinate response activities.

- The county used their telephone emergency notification system to warn residents to remain indoors, shelter in place.
- There were multiple road closures due to downed power lines and fallen trees. There was one structure fire caused by a burning tree fallen across the roadway into a house.
- Large portions of the county have been experiencing power outages. There were some sporadic 9-1-1 outages, but is currently operating.
- A CDCR crew out of Alder Camp at Pelican Bay is assisting with clearing the roadways of trees.
- This morning the winds have died down but a NWS Wind Advisory is in effect for the area until 1100 hours.
- Today, all schools and government (city and county) offices are closed.
- There are no requests from the county for assistance at this time.
- Del Norte County OES continues to monitor the situation and will provide periodic updates.

WEATHER OF CONCERN

Weather of Concern

- Cold air aloft will spread across Northern California today and Saturday, causing snow levels to fall to around 3000 feet by tonight.
- **Active Weather Warnings, Watches and Advisories by County:**
- http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php - Temporarily unavailable.
- <https://alerts-v2.weather.gov/counties/CA>

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

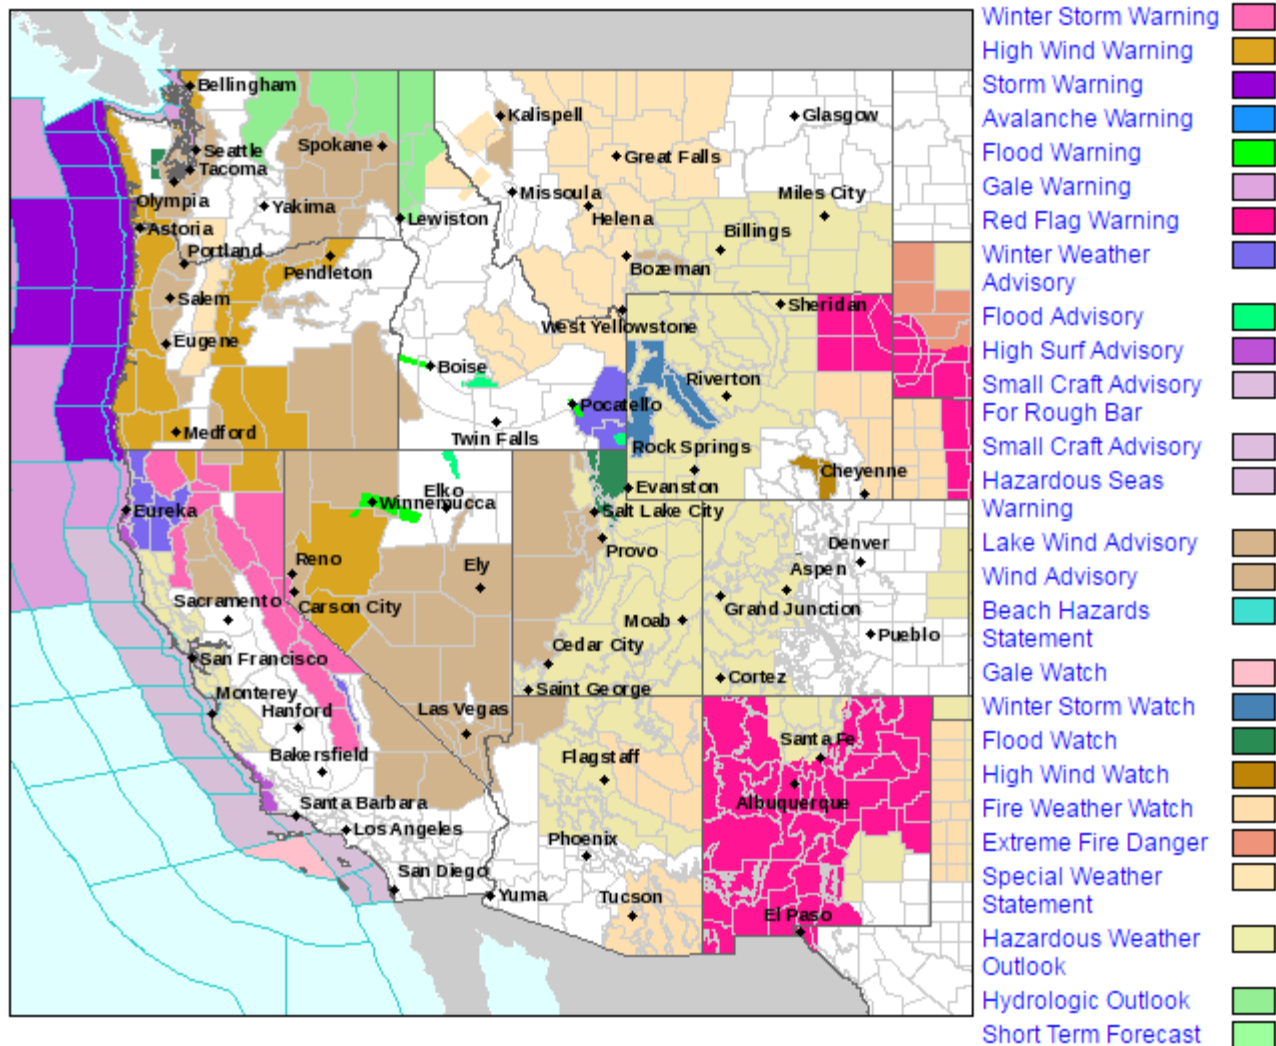

Stormy weather will continue throughout the region through Saturday. Strong gusty southeast to southwest winds will continue into this evening, with gusts of 30-40 mph in many open areas and 50-60 mph at higher wind-prone locations. Colder air is gradually moving in from the northwest. Snow levels will drop to 3500 feet near the OR state line and 5000 feet in the Tahoe region today, and drop another 1000 feet or so on Saturday. Winds will be lighter on Saturday as rain showers and mountain snow showers continue. After a break most of Sunday another wave of wet windy weather will move in late Sunday. Next week will continue to be wet, windy, and unsettled as several more waves move through the region.

SOUTHERN CALIFORNIA

An unseasonably cold low pressure system is centered off the Oregon Coast early this morning. An associated front will slowly sweep through Central California today, bringing a 3-6 hour period of light to moderate rain. So far, 1-2" of rain have occurred in Monterey County and the Sierras north of Fresno County. The front is weakening as moves southward, so rainfall amounts will generally taper off to 0.50" – 1.00" across the rest of the Central Coast and Sierras to 0.25"-0.50" across Santa Barbara and Ventura Counties. Only a tenth of an inch or so is expected south and east of Los Angeles by the time the front swings through Southern California early Saturday morning. The snow level will be above 7,000 feet today and tonight, but accumulations of 2-3' will be possible above 8,000 feet before the storm winds down Saturday morning. West winds of 20-30 mph with gusts to 50 mph will occur today through Saturday over all mountains and the high desert. Expect highs to reach the 40s in the mountains to the 60s in valleys the next two days. But sunny, warmer and less windy weather is expected Sunday into the first half of next week. An active weather pattern may return toward next weekend with a possibility of more wetting rains over Central California.
